## INAUGURATION OF CHAPTER

The ASHRAE Ghana Chapter proudly announces the official inauguration of the chapter, set for April 14th, 2025.

This momentous occasion celebrates our journey from a section under ASHRAE Nigeria to becoming a fully-fledged chapter in November 2023.

The event will bring together industry professionals, members, and stakeholders to mark this significant milestone and set the stage for future growth and collaboration. Further details about the venue and program will be shared soon.

## LEADERSHIP TRAINING

Representing the ASHRAE Ghana Chapter, the Membership Promotion Chair participated in the ASHRAE Chapter Leadership Academy at the ASHRAE Global Headquarters. This intensive program equipped him with practical insights and leadership strategies. He is set to share key takeaways with the chapter upon his return, ensuring these benefits reach all members as we strive for operational excellence.

## RAISE A GLASS FOR ASHRAE SOCIAL EVENT

Additionally, the "Raise the Glass" event was a highlight of the year, celebrating our collective achievements and strengthening bonds within the chapter. The event also served as a platform to attract potential members, showcasing the value and camaraderie of being part of ASHRAE Ghana.

## END OF YEAR MEETING

Reflecting on the past year, we fondly remember the end-of-year gathering at the Ghana Institution of Engineering (GHIE). The event fostered camaraderie among members, featuring refreshments and networking opportunities that strengthened our professional community.

## YEA REVIEW

The young engineers in ASHRAE had a productive and engaging first half of the year, with a series of insightful and interactive events. One notable highlight was the successful industry visit to We2Seafoods, which saw an encouraging turnout and provided valuable exposure to real-world applications in the field. The YEA committee played a pivotal role in driving attendance at joint events, as well as promoting a strong sense of inclusiveness among members, ensuring that all felt welcome and involved in the activities and initiatives. Their efforts have helped strengthen the community and foster a collaborative spirit within the organization.

# UPCOMING EVENTS

# 2025 ASHRAE WINTER CONFERENCE

ORLANDO, FEB 8-12 | AHR EXPO, FEB 10-12

Looking ahead, we encourage members to participate in the 2025 ASHRAE Winter Conference, scheduled for February 8-12, 2025, in Orlando, Florida. The conference will feature over 100 technical sessions across nine tracks, including topics such as Artificial Intelligence, Building Automation and Controls, and Pathways to Building Decarbonization. We look forward to your active participation in these events as we continue to advance our industry together

Join us for our first general meeting for the year 2025

We're excited to invite you to ASHRAE Ghana Chapter's first General Meeting of the year. Don't miss this insightful session on **"Building Decarbonization: Reducing Operating Emissions"** led by the distinguished lecturer Mick Schwedler.

**Date:** Wednesday, 29th January 2025

**Time:** 5:00 PM

**Platform: Microsoft Teams**
